

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

Artifact Image(s)	Catalog Number	Artifact Type/Description	Date of Recovery
	32E-GIRH 001 '99	Stemmed projectile point basal fragment; L 3.4cm W 3.4cm; Onondaga Chert; Middle-Late Archaic stage, Laurentian tradition, Genesee phase	March 1999
	32E-GIRH 002 '99	Side-notched projectile point basal fragment; L 3.0cm W 1.5cm; Onondaga Chert; Early Woodland stage; Meadowood phase	March 1999
	32E-GIRH 003 '99	Triangular projectile point fragment; L 2.6cm W 2.7cm; Onondaga Chert; Late Woodland to stage; Levanna type	March 1999
	32E-GIRH 004 '99	Side scraper; L 2.2cm W 2.0cm; Onondaga Chert; non-diagnostic	March 1999

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	32E-GIRH 005 '99	Quaternary blank fragment; L 3.8cm W 3.9cm; Onondaga Chert; Early Woodland stage; Meadowood phase	March 1999
	32E-GIRH 006 '99	Projectile point tip fragment; L 3.0cm W 1.5cm; Onondaga Chert; non-diagnostic	March 1999
	32E GIRH 007 '99	Kaolin pipe stem fragment-degraded condition to due to hydraulic erosion forces; L 2.0cm W 7mm; kaolin clay; historic	March 1999
	32E GIRH 008 '99	Kaolin pipe stem fragment-degraded condition to due to hydraulic erosion forces; L 3.0cm W 1.1cm; kaolin clay; historic	March 1999
	32E GIRH 009 '99	Kaolin pipe stem fragment; L 1.9cm W 8mm; kaolin clay; historic	March 1999

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	32E GIRH 010 '99	Kaolin pipe stem fragment; L 2.9cm W 1.0 cm; kaolin clay; historic	March 1999
	32E-GIRH 011 '99	Side-notched projectile point; L 5.2cm W 2.0cm; Onondaga Chert; Middle Woodland stage; Kipp Island phase, Port Maitland type	April 1999
	32E-GIRH 012 '99	Ceramic potsherd; L 3.9cm W 3.4cm; mineral tempered clay; Vinette I cord marking, Early Woodland stage; Meadowood phase	March 1999

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	<p>32E-GIRH 013 '99</p>	<p>Ceramic potsherd; L 4.4cm W 3.0cm; mineral tempered clay; Vinette I cord marking, Early Woodland stage; Meadowood phase</p>	<p>March 1999</p>
	<p>32E-GIRH 014 '99</p>	<p>Ceramic potsherd; L 4.4cm W 2.6cm; mineral tempered clay; likely Early Woodland stage; no conclusive diagnostic attributes</p>	<p>March 1999</p>
 <p>in-situ</p>	<p>32E-GIRH 001 '00</p>	<p>Projectile point or quaternary blank mid-section; bi-facially flaked; L 2.7cm W 2.8cm; Onondaga Chert; non-diagnostic</p> 	<p>March 2000</p>
	<p>32E-GIRH 002 '00</p>	<p>Kaolin pipe stem fragment-transition section from stem to bowl; L 2.5cm W 1.3cm; kaolin clay; historic</p>	<p>March 2000</p>

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	32E-GIRH 003 '00	Kaolin pipe stem fragment; L 2.5cm W 9mm; kaolin clay; historic	March 2000
	32E-GIRH 004 '00	Kaolin pipe stem fragment; L 3.2cm W 9mm; kaolin clay; historic	March 2000
	32E-GIRH 005 '00	Triangular projectile point fragment; L 2.7cm W 1.8cm; Onondaga Chert; Late Woodland or Mississippian stage; Levanna or possibly Madison type	March 2000
	32E-GIRH 006 '00	Ceramic potsherd; L 3.2cm W 3.0cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes	March 2000
	32E-GIRH 007 '00	Ceramic potsherd; L 2.9cm W 2.5cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes	March 2000

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	32E-GIRH 001 '01	Kaolin pipe stem fragment; L 2.8cm W 8mm; kaolin clay; historic	March 2001
	32E-GIRH 002 '01	Kaolin pipe stem fragment; L 3.3cm W 8mm; kaolin clay; historic	March 2001
	32E-GIRH 003 '01	Kaolin pipe stem fragment-degraded condition to due to hydraulic erosion forces; L 3.5cm W 6mm; kaolin clay; historic	March 2001
	32E-GIRH 004 '01	Strike-a-lite type II fragment; L 2.7cm W 2.7cm; Onondaga Chert; Woodland stage	March 2001

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	32E-GIRH 005 '01	Quaternary blank basal fragment; L 1.6cm W 3.0cm; Onondaga Chert; Early Woodland stage; Meadowood phase	March 2001
	32E-GIRH 006 '01	Projectile point tip fragment; L 3.0cm W 1.6cm; Onondaga Chert; non-diagnostic	March 2001
	32E-GIRH 007 '01	Bi-facially flaked projectile point preform fragment; L 2.0cm W 1.4cm; Onondaga Chert; non-diagnostic	March 2001
	32E-GIRH 008 '01	Ceramic potsherd; L 3.0cm W 2.3cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes	March 2001

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	<p>32E-GIRH 009 '01</p>	<p>Ceramic potsherd; L 3.1cm W 2.9cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes</p>	<p>March 2001</p>
	<p>32E-GIRH 010 '01</p>	<p>Ceramic potsherd; L 3.4cm W 3.2cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes</p>	<p>March 2001</p>
	<p>32E-GIRH 011 '01</p>	<p>Ceramic potsherd; L 2.5cm W 2.3cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes</p>	<p>March 2001</p>

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

	<p>32E-GIRH 012 '01</p>	<p>Net sinker; triple-notched; L 8.0cm W 7.5 cm; sedimentary lithic material; likely Early Woodland stage affiliation</p>	<p>April 2001</p>
	<p>32E-GIRH 013 '01</p>	<p>Net sinker; triple-notched; sedimentary lithic material; L 8.3cm W 6.5 cm; likely Early Woodland stage affiliation</p>	<p>March 2001</p>

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

 <p>in-situ</p>	<p>32E-GIRH 001 '02</p>	<p>Triangular projectile point fragment; L 2.2cm W 2.4cm; Onondaga Chert; Late Woodland to Mississippian stage; Levanna type</p> 	<p>March 2002</p>
 <p>in-situ</p>	<p>32E-GIRH 002 '02</p>	<p>Triangular projectile point; L 3.4cm W 2.7cm; Onondaga Chert; Late Woodland to Mississippian stage; Levanna type</p> 	<p>March 2002</p>

Riverhaven Site, Town of Grand Island, Erie County, New York – Artifact Assemblage Inventory

That portion of the inventory indicating provenience has been intentionally secluded in order to protect the exact location of the site.

 <p>in-situ</p>	<p>32E-GIRH 003 '02</p>	<p>Kaolin pipe stem fragment; L 3.1cm W 8mm; kaolin clay; historic</p> 	<p>March 2002</p>
 <p>in-situ</p>	<p>32E-GIRH 004 '02</p>	<p>Ceramic potsherd; L 3.8cm W 2.9cm; mineral tempered clay; likely Early Woodland stage; no diagnostic attributes</p> 	<p>March 2002</p>
